## SF-04: Issue Request

### 1 Introduction

The following multi-part form included within this document is to be used by all Registrants for submitting Issue Requests for I-REC(E). Evident reserves the right to request further information in addition to that requested in this form where, in its reasonable opinion, such information is required to establish the eligibility, configuration, operation, volume of energy produced, ownership, or attribute rights of the Production Facility.

The completed form should be attached to an Issue Request within the Evident Registry. Where an online system is available for Issue Request submission within the Evident Registry that system may, at the sole discretion of the responsible Issuer, be used to replace the requirement to submit form *SF-04: Issue Request* through the Evident Registry.

Form *SF-04A: Issuing Declaration* shall be submitted with all Issue Requests.

Form *SF-04B: Production Group Statement* shall be submitted only for Issue Requests of Production Groups.

Form *SF-04C: Fuel Consumption Statement* shall be submitted for every Issue Request where the Production Facility uses multiple fuels.

Issuers may, at their discretion, require completion of this form, or a translation, in another language **in addition to English**.

This document is correct at the date of issue, however Evident may change the information requirements without notice where necessary for compliance with national legislation or to preserve the integrity for the I-REC(E) market.
